Consent to Participate in Research

RESEARCH STUDY TITLE: A Survey on Demographics and Views on Economic, Political, and Social Issues

PRINCIPAL INVESTIGATORS: DR. CHRISTOPHER S. CARPENTER, DR. BILLUR AKSOY, DR. DARIO SANSONE,

DESCRIPTION

The purpose of this study is to understand the demographic composition of the respondents and their views on certain economic, political, and social issues.

METHODS

This study will take about 8 minutes to complete. You will be asked to answer a set of survey questions. Your answers will be anonymous.

BENEFITS

There are no benefits other than helping research.

POSSIBLE RISKS AND DISCOMFORT

The risks associated with this study are minimal and there are no risks to participating other than those you would come across in everyday life. Some questions may create discomfortable. However, you are free to withdraw from the study at any time.

PAYMENT AND COMPENSATION

You will be given at least $1.60 for participating in this study. The actual compensation amount is the amount that was advertised on Prolific. There are several attention checks throughout the study. If you fail two or more, you may not receive any payment. All your earnings will be disbursed via the prolific platform.

PARTICIPANT'S RIGHTS

You always have the option of not participating in today's study, and you may leave at any time without penalty. However, only the participants who complete the entire study will be eligible for compensation.

DATA CONFIDENTIALITY AND SECURITY

The information collected in this study will be anonymous. The study provider (Prolific) does not provide your name and contact details to the researcher. Your responses may contain some personal characteristics such as age, ethnicity, and gender, but there will be no specific personal information such as name and contact details to identify you. The anonymous study data will be securely stored on a cloud-based storage platform with encryption and access controls. The data will be made available in a public repository for use by other researchers for scientific and replication purposes. The data will be retained indefinitely to support future research.
